

# SureGreen™ Mold Inhibitor

- Environmental mold & mildew inhibitor
- Meets ASTM guidelines for homebuilding industry
- Triple protection designed for short, medium, and long-term exposure in all conditions including extreme tropical weather
- Designed shield keeps the triple fungal protection chemistry close to the exposed material surfaces
- Strong flexible film designed to resist oils, ultraviolet radiation, water, solvents and many chemicals
- Controlled fungal protection through a unique encapsulation of three highly active fungal chemicals
- Non-evaporating and non-migrating fungal protection
- Non-slip surface ideal for use in hot weather conditions
- Inhibits bacteria growth as well as resisting many cellulose-eating insects, especially in hot humid weather
- Unique carton form and shield combination designed to disintegrate in a controlled fashion, with the protective film going last
- Scratch and mar resistant
- Recyclable and repulpable components
