

SlabVoid®

NOTES:

1. Function: Properly creates void space directly under structural concrete slabs
2. Description: Open-ended, rectangular carton void form, available as a pre-manufactured form, secured with glue (with or without staples), or available in a knockdown form
3. Composition:
 - a. Exterior: Corrugated paper with a moisture-resistant outer surface
 - b. Interior: Corrugated paper arranged in a uniform, cellular configuration
4. Strength: Capable of sustaining specified vertical loads until they become self-supporting, while maintaining full void depth as indicated on the drawings, or as recommended by the manufacturer
5. Accessories: Used in conjunction with a protective cover sheet over the entire top surface to prevent damage to the carton void form, distribute working loads, span small gaps, and provide a suitable surface for foot traffic during carton void form placement
6. Installation: Install in accordance with manufacturer's recommendations. Protect carton void forms from moisture and damage prior to concrete placement.
7. Acceptable Product / Manufacturer: SlabVoid® as manufactured by VoidForm Products, Inc. 888-803-VOID (8643)
