LEED Certification Submittal Information **for Corrugated Paper Carton Void Forms**

What is LEED certification?

"In the United States and in a number of other countries around the world, LEED certification is the recognized standard for measuring building sustainability. Achieving LEED certification is the best way for you to demonstrate that your building project is truly "green."

The LEED green building rating system -- developed and administered by the U.S. Green Building Council, a Washington D.C.-based, nonprofit coalition of building industry leaders -- is designed to promote design and construction practices that increase profitability while reducing the negative environmental impacts of buildings and improving occupant health and well-being." (taken from the Natural Resources Defense Council website: www.nrdc.org/buildinggreen/leed.asp)

Pertinent Information for Corrugated Paper Carton Void Form Products:

Manufacturer:	VoidForm Products, Inc. 1895 West Dartmouth Avenue Englewood, CO 80110 888-704-VOID (8643)
Corrugator:	International Paper Company Golden Container Plant 4565 Indiana Street Golden, CO 80403
Paper Mill:	International Paper Company Albany Paper Mill 3251 Old Salem Road Northeast Albany, OR 97321
Harvest Location:	Various western region forests in Oregon and Washington states
Recycled Content:	Post-Consumer -- approx. 43% (+/- 3%) OCC (old corrugated containerboard) Post-Industrial -- approx. 51% (+/- 3%) Wood Chips (saw mill waste by-products) approx. 6% (+/- 3%) DLK (double-lined kraft / corrugator waste) ----- 100% Total
FSC Wood Certification #:	N / A
Certified Wood:	52% of wood chips provided are from certified wood forests (Note: All wood chips are derived from waste materials brought in from area saw mills that process timber.)
